### EVERYTHING PUT OFF

The Revocation of the Water Ordinance Postponed to Friday.

NO ACTION ON THE GAYNOR

A'derman Lynch Asks for the Dis Scanlon - A \$5,000 Fire House Recommended.

BUTTE, July 1 .- The council to-night about fire so much that it didn't reach the subject of water, and conse quently the council will wait until Friday night before revoking the ordinance of the water company. It was 11:30 o'clock when the council got down to the report of the judiciary committee, when the sub ject of water would properly come up, and it was then voted to adjourn.

A little breeze was stirred up in the council chamber when Alderman Lynch made his reportas chairman of the finance committee. He said that Alderman Maule and himself this afternoon had been in the city clerk's office auditing bills and were discussing the matter of blacksmith's bills. Street Commissioner Scanlon was in hearing, and Mr. Lynch said that he used insulting language towards the council and said they would have to accept the bills.

Mr. Lynch spoke strongly in the matter and did not think the council should permit such action in its servants. Alderman Maule supported the statements of Mr. Lynch. A motion was then made that the street c mmissioner be discharged.

"It is not right to act, when we have heard only one side of the question," said Alderman Harrington. "I would like to hear the street commissioner." Alderman Hines expressed himself similarly and moved that a commisse be appointed to try the case in a formal

way.

"I made my positive statement here," said Alderman Lynch, "and if my word is doubted by any member I will quit this body. I defy any one to deny the statements I made. I will not appear before any committee and will not make my statements again."

Alderman Harrington did not doubt the constitution but the statements again.

accusation, but thought the proper place for redress if a man was insuited was in the courts. Every man is entitled to a trial. By a vote of 8 to 5 it was decided to refer this matter to a committee to in-vestigate. Aldermen Dawson, Dugan and parret were appointed as such com-

The fire committee recommended the erection of a temporary brick building on the West Quartz street site, the estimated cost to be \$5,000. It also recommended the adoption of the Gaynor fire alarm system, as it had proved entirely satisfac-

"This is a very nice proposition for the company," said Alderman Lynch, "but why should the city accent before the time agreed on has arrived? Would any alderman in his own business do it?"

C. A. Ray was allowed to speak in behalf of the company. He charged that some one had interierred with the system and that evidence has been collected to that effect. The system was now running all right and he thought the city should accept it.

accept it.
Alderman Dugan said he would vote against a motion to accept it at this time. He would like to see first whether the sys-He would like to see first whether the system would prove satisfactory or not when worked by local firemen. He admitted it was working all right under the company electronan, but it might not work right when he went away. Alderman Lynch thought the city shoftled have bonds and a guarantee that the system would work all right for two years after its acceptance and he moved as an amendment that the council defer action until such bond and guarantee are filed and approved. Judge Barret offered to go on the bond at once. Mr. Ray said that the loss to his company in contracts has amounted to \$20,000 on account of the unfortunate situation in Butte. Telegrams had been sent from here to other cities that it is a fake. If the system could be accepted to-night it would greatly aid the company in three would greatly aid the company in three pending contests. It was finally voted to defer action in the matter until the next

A bid was received from J. H. Leyson of 2000 for furnishing a time tower clock to the city. This was the only bid received. Alderman Barret moved to lay the matter over for surther consideration the matter over for jurther consideration, as he was opposed to having a clock in the present financial condition of the city. He said the city has not the money to pay for the clock. Other aldermen objected to giving up the clock project and Alderman Dawson made an cloquent and forcible address on the general utility of clocks and the particular utility of a clock for the new city hall. The bid was finally referred to the public building committee.

The Butte Turn Verein asked the low-est cash price the city would ask for the old city bail. The matter was passed over, the city having advercised for bids, and desire a bid from the Turn Verein, which would then be considered.

An invitation was accepted to attend the Fourth of July celebration at the race

track.

A communication was received from the Butte Electric Light company offering to furnish lights every night in the year and all night long for \$3.83\(\pm\) to the price already contracted for the moonlight schedule. This would make \$18.50 per light per month altogether. It was decided to advertise for bids for furnish-

decided to advertise for bids for furnishing lights the extra time required, it being specified that all time in which such lights is not furnished double shall be deducted from the company's price.

Potitions for electric lights on the east side of lewer Main near Porphyry street, and at the corner of Arisona and Pintinum street were referred to the light committee. The complaint with regard to the culvertin West Woolman street, was referred to the sewer committee, licalith referred to the sewer committee, licalth Officer Robarts was granted a leave of absence of three months. The dector presented his report and estimated that in the next year he would save 100 lives valued at \$100,000, which is greater than the entire cost of running the city government.

There was a smile passed around the council chamber when a bill was received from Wilson & Gillie of \$100 for services in visiting Jerry and Divide creeks last spring to investigate the water supply. It will be remembered that when the var-ious resources were visited the three comtous resources were visited the three competing companies all agreed to pay for the expedition to its own source. It seemed that the successful company, with its Eastern millionaires floating in wealth, failed to pay its share. On motion, the bill was returned to Wilson & Gillie, with instructions to present it to the Butte City Water company. The council adjourned until Friday evening.

AT THE THEATER "A Social Session" To-night-Vernona Jar-

FUTTE, July 1-"A Social Session" will open a three nights' engagement in this city to-morrow night. There will be a street parade, starting from the operahouse at 1:30 o'clock.

street parade, starting from the opera house at 1:30 o'clock.

Miss Vernona Jarbeau, a pretty favorite of the opera comique school, will bring her own company to the opera house July 6, 7 and 8. The musical comedy "Startight," described on the playbills very apily as a dramatic piece of brica-brac, was expressly written for Miss Jarbeau's debut as a star. The plot describes the scarch for a prima donna made by a musical "crank" anxious to become an operatic manager. He discovers a shepherdess with a voice, brings the rustic singer to America, and she makes her appearance at a fashionable reception, where the various guests arsist her at a rehearsal. The result is, of course, A medicy entertainment, song succeeding ballad, and ballad following song, each character making at least four changes of costume in each act. The charm of "Starlight" is the bevy of pretty girls who are to be seen in it. Miss Jarbeau herself has a fascination both of voice and gesture, and she has been remarkably successful in surrounding herself with women who are comely and charming in every sense.

ming in every sense.

To sum up—if pretty faces, sweet voices, well-selected music, handsome costumes, and an entire absence of vulgarity count, "Starlight" should be a genuine popular success in this city, and it doubtless will be. Reserve sale opens at Calkins' Friday, July 3.

#### THEY DIDN'T FIGHT.

Policemen Prevent the Occurrence of Scrapping Maich.

BUITE, July 1 .- Considerable excite ment was occasioned on West Park street shortly before 10 o'clock to-night by body of fully 100 men marching through the street on the deuble quick in the direction of the city limits. No one seemed to know what was up and the crowd continued to swell by the accumulation of curious men who followed the procession to see what was going to happen. When near Ar.zona street it was learned that a couple of men leading the crowd were going to fight and settle a dispute over the ownership of 59 cents that one of them had put on a faro table. At this juncture three or four policemen appeared and one of the scrappers took to his heels and in a minute had disappeared. The other then began to talk loud about what he intended to do, but quickly subsided when threatened with arrest for disurrbance of the peace, and causing a crowd to gather. crowd continued to swell by the accumu the peace, and causing a crowd to gather. After this he siunk away much to the dis-gust of the crowd which anticipated a red-hot fight.

#### A STEP FORWARD.

N. J. O'Brien Takes a Good Position With the Union Pacific.

BUTTE, July 1.-Information was re ceived this evening that N. J. O'Brien, for the last two years superintendent of transportation of the Montana Union, had severed his connection with that company. "Nick's" many friends will regret to learn that he will not return to regret to learn that he will not return to Butte, but they will be pleased to know that in severing his connection with the Montana Union, he did so to accept a better position with the Union Pacific, having been appointed assistant superintendent of the Pacific division. This division embraces all of the Union Pacific lines west of Huntington, Ore, and extends to the company's northermost lines in Washington. Mr. O'Brien passed through Pocatello yesterday en route to Portland. He will enter upon his new position at once.

#### TEN GALLONS OF BEER. The Price a Bridegroom Paid to be Let Alone.

BUTTE, July 1 .- A Bohemian couple were married a few days ago and took up their abode in Walkerville. The youth of that burg took advantage of the occa-sion on Monday night to have some fun. Armed with tin pans and horns they sought the residence of the newly mar-ried couple and by their racket greatly interfered with the peace and quiet of interfered with the peace and quiet of their happy hearth. The husband re-alized the fact that they were being chivarced and knowing the object of such a gathering went and gave the boys a 10 gailon keg of beer and told them if that was not enough to come back. As the party only numbered about 10 they found 10 gailons sufficient and didn't return.

The first Fourth of July celebration which the famous old town of Deer Lodge has had in many years takes place next Saturday. As that day is also the initial day of the races it is expected that a great attendance will be present from other towns in the state. The rising cra-ter of Montana, Hon. E. D. Matts of Missoula, will make the oration. Deer Lodge can furnish ample hotel accommodations to any number of people. The favorite hostelry, the McEurncy house, has made every preparation for the reception of a large crowd. The finest display of fire works ever made in the state will take place in the evening.

### TOPICS OF THE TOWN.

Butte Should Have a Big Demonstration on the Fourth.

A FIRM FRIEND OF PENROSE

James A. Murray Misses His Old Companion-Purchased Lots in Big Butte Addition-The "War Cry."

BUTTE, July 1.—A good many merchants in town are kicking themselves to-day because they did not get up a Fourth of July celebration. Their neglect in this regard will have the result of taking \$2,000 out of the city. There were men ready, if they had received a little ready, if they had received a little encouragement, to get up as fine a celebration as was ever seen in Montana. But no such encouragement has been given and consequently a good many hundred people in Butte, thinking there would be no celebration in town, have already laid their plans to go to Deer Lodge, Granite, Helena or some other point to spend the Fourth.

Nevertheless there is to be plenty of sport in Butte and it will be unnecessary for lovers of sport to leave town. The

Nevertheless there is to be plenty of sport in Butte and it will be unnecessary lor lovers of sport to leave town. The action to the P. O. S. of A. last night in deciding to go to Deer Lodge is thought by many to indicate that the projected celebration for this city is to be abandoned. Such is by no means the case, however. It is stated by members of the order that the action of last night was due to nothing else than the fight between the Musicians' union and the mining bands of the city. It seems that the men who have been getting up the celebration engaged the Boston & Montana band. There are members of the musical union in camp 18 of the P. O. S. of A., and it is claimed that these members used their influence to have the order go to Deer Lodge instead of endorsing the celebration at the race track.

Nevertheless the race track celebration will be held and a good list of attractions has been arranged. There will also be plenty of sport at the Columbia gardens, and there will be wreating tournaments at the pavilion at Centerville and at the Milwaukee beer hall.

There are, however, a good many people who want to see a parade in town on July 4, and see the town painted red generally, on the theory that if money is to be burned up it is better to burn it up in Butte than somewhere else. To-morrow evening the fire department is to hold a meeting at the city hall to consider the matter of parading in uniform and decorating carts, etc. It is hoped the boys will turn out and show themselves. The aerial ladder may never be seen by the city and may never be of any service unless it is used for parades.

Probably no man in Butte misses the

Probably no man in Butte misses the late W. J. Penrose as much as does

late W. J. Penrose as much as does James A. Murray. Mr. Murray has just returned from California, where he has been ill and was unable until recently to return to Butte. Mr. Murray, in casual conversation, remarked to-day:

"I have been looking all over town to-day for Penrose. I expect to meet him on every corner and I cannot conceive of his being laid away in the ground. A good many people didn't like Penrose because they didn't know him well and didn't understand him. I think I knew him better than any one else and those

didn't understand him. I think I knew him better than any one else and those who knew him best liked him best. Many is the time that Penrose has roasted men in his paper and the next day help him along in every way possible.

"The murder was a dastardly thing, and it aroused feeling in California as much as it did here. If two or three men were concerned in the matter, it will come to light sometime. I am of the opinion that it was done by one and if he is a clever person it may be difficult to bring him to justice."

The name of W. J. Penrose has been erased from the list of "Traitors and Enemies to Labor," on the blackboard at

Butte citizens have bought a good many lots in worthless additions to other places, but it seems that something in that line has been done for Butte in othe that line has been done for Butte in other cities. It is said that lots have been sold in the Big Butte addition, the lots in question being situated half way up the Big Butte. A projected cable line to the top of the butte, with an imaginary summer garden at the summit, is said to have helped sell these lots, a good many of which were disposed of in Anaconda.

The latest issue of the War Cry is dec orated with the national colors. outside pages resemble the national flag and the paper is printed in blue ink. Among interesting things in the paper is the table of the number of papers sold each week in various stations of the United States. Butte City leads Montana, disposing of 541 copies, while only 234 are disposed of in Helena. Butte leads Helena in salvation as in everything elements.
